Professional Career

2015 – Present, Senior Project Manager, “Children’s Hospital Colorado”, Aurora, Colorado

Mr. Dudek is the Senior Project Manager for the IT enterprise transformation project at Children's Hospital Colorado. In addition to Tony's role as Senior Project Manager, he acted as Scrum Master and facilitated the weekly scrum meetings. He worked with multiple cross-functional teams including IT infrastructure, clinical applications, IT support and help desk, operations and staffing. Tony's work insured that the project was delivered on time, within budget and exceeded Children's quality expectations.

2015 – Present, Senior Project Manager, “Advanced Systems Group”, Thornton, Colorado

ASG focuses on providing comprehensive solutions to Fortune 500 companies with mission-critical business applications. Since 1981, ASG has dedicated itself to ongoing research and exploration into new technologies, with the singular goal of meeting every client challenge with a customized solution.

1992 – Present, Senior Project Manager, “Promatics, Inc.”, Denver, Colorado

Mr. Dudek is the founder and senior project manager of Promatics, a professional services organization dedicated to project management, business intelligence, business analytics, strategic partnering and training. He is an expert at using number of project management and scrum methodologies including PMBOK, Waterfall, Agile and Kaban.

2012 – Present, CFO and Business Development, “Enduring Images”, Golden, Colorado

As CFO and Director of Business Development, Tony's role at Enduring Images is to improve the company's product and systems pricing, cost and gross margin. During his first year, his accomplishments included: increasing revenue by 22%, reducing costs of goods, controlling expenses and increasing net income by 187%.

2014 -- 2015, Senior Project Manager, “Agency of Health and Human Services”, State of Vermont

Tony was the Senior Project Manager for the Transition Management Project on the relocation of the Agency of Health and Human Services departments and staff to the new Waterbury State Office Complex (WSOC). The WSOC was the largest capital project undertaken by the State of Vermont at \$125 million and affecting almost 900 employees. In Tony's roles as project manager and scrum master, he interfaced with multiple cross-functional teams including, state and federal government stakeholders IT staff, architects, general and subcontractors.

2014 -- 2015, Senior Management Consultant, "Desai Management Consulting", Williston, Vermont

As Senior Management Consultant, Tony is a leading advisor on the disciplines necessary for successful business execution. DMC partners with clients in all industry sectors and geographic regions to identify their highest-value opportunities, address their most critical challenges, and transform their businesses through Strategic Planning, Project Management, Business Process and Change Management.

2014, Senior Project Manager, "Efficiency Vermont", Burlington, Vermont

As Senior Project Manager, Mr. Dudek developed a New Product Development (NPD) process for Efficiency Vermont (EVT). This project was successfully completed on time and within budget. The NPD process allows EVT to more effectively and efficiently develop new energy savings products for Vermont residences and businesses. The agile NPD process allows EVT to quickly develop new energy saving products tailored to the needs of Vermont residences and businesses.

2011 – 2012, CFO and Business Development, "Energy Environmental Corporation", Centennial, Colorado

As CFO and Director of Business Development, Tony's role at EEC was to develop new web sites showcasing the company's technology, products and services. The websites are used to promote the company as well as generate qualified leads. As CFO, Mr. Dudek's role was to clean up the company's financial accounting system, prepare quarterly financial reports to shareholders and position the company for follow on financing.

2007 – 2010 Business Development and Marketing Services, "China WiMax", Denver, Colorado and Beijing, China.

Mr. Dudek prepared local China market research, defined near-term and long-term business strategies for wholesale and retail customer segments. Coordinated brand development – company, products, image, logos and tag lines. Integrated the company's business strategy with the business plan, executive summary and investor presentation.

1998 – 2006, Co-founder and COO, "e-City", Amsterdam, Netherlands

Mr. Dudek was the co-founder and Chief Operating Officer of e-City, an electronic commerce, design and development organization for both traditional and emerging technologies. His role in e-City was to develop new business opportunities and strategic relationships for the company as it expanded throughout the European marketplace with its delivery partner United Pan Europe Communications (UPC).

1993 - 1998, Managing Director, "Multi-Page", Moscow, Russia

Mr. Dudek was the co-founder and Managing Director of Moscow, Russia's first bi-lingual alpha numeric paging company. He developed business plans, acquired partners, designed and implemented simulcast-paging network. He also developed and managed marketing and sales departments, acquired vendors and negotiated contracts. Under his guidance, the company grew from start-up to over 15,000 customers and 140 employees in less than four years. He successfully orchestrated the Multi-Page/Radiopage merger in 1998.

1987 - 1992 Vice President, "Cellular Solutions, Inc.", Boulder, Colorado and Mexico City, Mexico

Mr. Dudek was a founding partner of Cellular Solutions, a marketing services and cellular product development company. He authored business plans, acquired funding, prepared marketing programs, managed vendors, and developed the company's proprietary cellular products in Japan, Hong Kong and Taiwan. Under his direction the company grew the company from inception to \$7.5 million in annual sales in less than four years. Mr. Dudek was responsible for establishing a subsidiary of the company in Mexico City in with IUSA Cell, Mexico's largest non-wireline cellular operator.
